## Positions Held

### Academic/Research

- 2013–present **Research Assistant**, *Simulation-Based Engineering Lab*, Madison, WI.  
Collaborated with Prof. Dan Negrut and Dr. Arman Pazouki in the study of parallel programming techniques and technologies for GPU, shared and distributed memory architectures, and their application to fluid-solid interaction problems. Other duties included developing web-based and scripting programs for pre and post processing tasks.
- 2015–present **Research Assistant**, *Wisconsin ADRC Imaging Group*, Madison, WI.  
Worked with Vamsi Ithapu and Prof. Vikas Singh on improving the scalability, extensively validating and benchmarking, and extending, a novel permutation testing algorithm.

### Industry

- 2014 **Explorer Intern**, *Microsoft Corporation*, Seattle, WA.
